

A little Christmas magic

Dear Éléonore,

A warm hello from the North Pole! There is something wonderful about the little things that make you, you. Your curiosity, your ideas and the kindness you share all belong in your story.

You do not need to be perfect to be celebrated. Keep exploring what you enjoy, try again when something feels tricky, and make room for a little fun along the way.

I hope this Christmas brings you cosy moments, happy surprises and time with the people who love you. Your very own message is here to add a little sparkle.

With a twinkle and a warm Christmas wish,

Santa Claus
WITH LOVE FROM THE NORTH POLE
